Create a Repository Name with your Enrollment Number

The screenshot shows the GitHub interface for a new repository named '2401031830015' by user 'Rushabh1810-cyber'. The repository is public. The page includes navigation tabs for Code, Issues, Pull requests, Actions, Projects, Wiki, Security, Insights, and Settings. Below the repository name, there are buttons for Pin, Unwatch (1), Fork (0), and Star (0). The main content area features two cards: 'Set up GitHub Copilot' with a 'Get started with GitHub Copilot' button, and 'Add collaborators to this repository' with an 'Invite collaborators' button. A 'Quick setup' section provides instructions for setting up the repository on a desktop or via HTTPS/SSH, with a copyable URL: 'https://github.com/Rushabh1810-cyber/2401031830015.git'. It also includes a command-line section for creating a new repository.

Search for people using their GitHub username or email address.
Invite collaborators

Quick setup — if you've done this kind of thing before

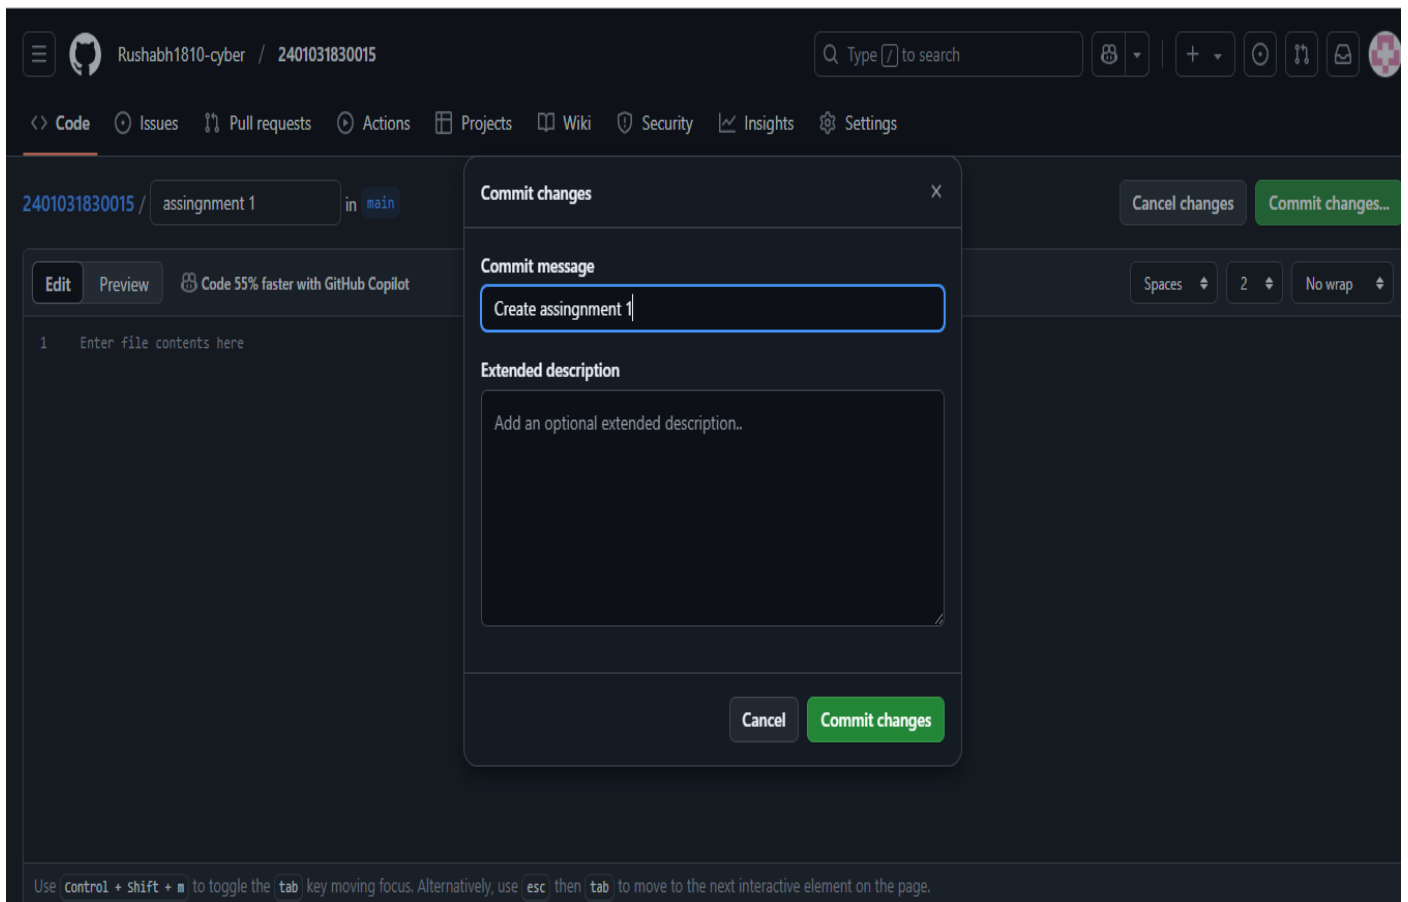

Set up in Desktop or HTTPS SSH `https://github.com/Rushabh1810-cyber/2401031830015.git`

Get started by [creating a new file](#) or [uploading an existing file](#). We recommend every repository include a [README](#), [LICENSE](#), and [.gitignore](#).

...or create a new repository on the command line

```
echo "# 2401031830015" >> README.md
git init
git add README.md
```

Create a new file with the name of Assignment_1
